

# Devin Rhode, JavaScript Engineer

devinrhode2.github.io • (612) 440-5172 • DevinRhode2@gmail.com

Greater Minneapolis-St. Paul Area

JavaScript (ES6) • React • Redux • Browser Extensions • Node.js • Responsive CSS  
Ember • HTML5 • Sass+Less • Animation • CSS in JS • Bootstrap • Web Scraping  
Webpack • Babel • Create-React-App+Craco • Gulp+Grunt • Git Hooks+Husky  
Prettier • ESLint • Stylelint • Accessibility • Http Proxies • Cookies • Cors  
Git • Github • Gitlab • Jira • Markdown • Basic Ruby+Python+Bash+SQL

## Work History

---

### BIWorldwide • Jan 24th 2019 - Jan 31st 2020

Worked on several apps with Custom CMS. Upgraded React 15 => 16, Webpack 1 + Gulp => Create-React-App + Craco (Webpack 4). Built node proxy to use data from any backend, with ability to record and re-serve requests. Mastered git submodules, but migrated to classic monorepo. Began typescript migration. Created language debug mode to find hardcoded english.

### Alliance Laundry Systems • Nov 2017 - Oct 2018

Worked on ember-frontend of laundromat *management* app, with emphasis on re-writing washer/dryer programming interface.

### EPAM • Apr 2016 - Jun 2016

Built a simple internal app for one of EPAM's larger clients, Google.

### Opera • Jun 2015 - Jan 2016

Worked on extension for a consumer app. All UI was contained in a separate ember app, so extension code rarely/never needs updates. Helped with Node rest api. Also worked on toolbar built with backbone.js.

### Amobee • Apr 2013 - Aug 2013

Helped with js side of hybrid native+web 3d ad engine. Upgraded ad markup language from xml to Jade templating.

### Freelance & Startup projects • Since December 2010

I've written 14 chrome extensions receiving 1,000's of downloads, worked on a number of websites, and contributed countless hours to open source.

- **HeyImLea.com**, Built homepage for chatbot, scripted demo with ember+redux.
- **Scout**, personal startup project. Learned javascript, css, web performance, framing, and scraping. <https://github.com/devinrhode2/Scout>
- **HMU**, Built team in college, developed app for connecting with friends nearby.
- **Snap Speed Computer Care**, Started computer repair service in high school.

*"I hired Devin to code a chrome extension that had a Facebook SDK integration component, and some non trivial script injection dependencies. Devin powered through the project in record time, and had a good sense for design and usability while doing the trickier coding parts. He is one of the most talented young coders I've ever met."*

— Sergey Lossev, client

*"Devin has been a very significant contributor"*

— Linda Hass, Opera

*"Devin is a very rare type of person. He is the type of student who doesn't look for the grade in a class, but the experience and being able to take something away from it to apply in life."*

— Ehsan Angadjivand, classmate

## Education

---

University of Minnesota, Duluth 2010-2011 – Focus: Computer Science, Math
