Devin Rhode

Senior FE+DX TypeScript Dev
Greater Minneapolis-St. Paul Area

Summary

I love TypeScript

Experience

TextUs

Senior FE+DX TypeScript Dev
June 2022 - October 2022 (5 months)
Denver, Colorado, United States

Raised code review standards, upgraded prettier v1->v2, eslint v5->v8, cypress v5->v10, exposed hidden request-related errors, created E2E type safety RFC, created system to move team towards 100% type safety with every PR.

WinField United

Senior FE Platform Engineer
November 2021 - June 2022 (8 months)
Arden Hills, Minnesota, United States

Lead frontend dev on ATLAS platform team. Updated Next.js 9->12, NextAuth.js 3->4, Webpack 4->5, prettier, eslint, typescript, and node. Improved CI/CD quality checks, added multi-tenancy support, and modern pino-based logging.

Ameriprise Financial Services, LLC

Senior Software Engineer (React+Typescript)
September 2020 - November 2021 (1 year 3 months)
Remote

Created company specific form library based on React-Hook-Form and typescript. Unit and e2e testing with Cypress and Jest. Lots of Typescript and React Hooks.

Best Buy

Senior Software Engineer
February 2020 - June 2020 (5 months)
Richfield, Minnesota, United States

React, Redux, Jest, cypress, reselect, ssr, node, express. Worked on preferred store location cookies, diagnosed and patched bug in fetch polyfill affecting iOS 11+10, causing the users store to get incorrectly overwritten with geolocation.

BI WORLDWIDE

React/Javascript Developer

January 2019 - January 2020 (1 year 1 month)

Edina, Minnesota, United States

Worked on several apps with Custom CMS. Upgraded React 15 => 16, Webpack 1 + Gulp => Create-React-App + Craco (Webpack 4). Built node proxy to use data from any backend, with ability to record and re-serve requests. Mastered git submodules, but migrated to classic monorepo. Began typescript migration. Created language debug mode to find hardcoded english.

Allen Interactions Inc.

Frontend Web Developer

October 2018 - January 2019 (4 months)

Mendota Heights, MN

Created simple, fun, interactive learning experiences using HTML5, CSS and JavaScript.

Alliance Laundry Systems LLC

Ember/Javascript Developer

November 2017 - October 2018 (1 year)

Remote

Worked on ember-frontend of laundromat management app, with emphasis on re-writing washer/dryer programming UI. Setup sentry.js error dashboard.

EPAM Systems

JavaScript Developer

April 2016 - June 2016 (3 months)

Mountain View, CA

Built a simple internal app for the finance department of Google

Opera Software

Software Developer

June 2015 - January 2016 (8 months)

Sunnyvale, CA

Originally brought on for 3 month project; a network injected javascript toolbar.

I was then put onto a second project, a browser extension for a new consumer app. I architected the extension so all ui was loaded through a simple iframe, which pointed to a "mobile" site with all the ui. This mobile site was built with Ember.js. This meant we rarely needed to publish updates of the core extension to the chrome web store.

I also worked on the Node.js backend api, supporting the android and iOS clients.

Amobee

JavaScript Developer

April 2013 - August 2013 (5 months)

Redwood City, CA

Collaborated with C Engineers on a hybrid native/web ad SDK. Developed ads using their proprietary markup language. Made critical contributions to the markup language, resulting in faster development and less duplication.

TrackIf LLC

Javascript Developer

December 2012 - February 2013 (3 months)

Remote

Designed and implemented initial versions of bookmarklet, Chrome and Safari extensions with code-sharing and live update capabilities.

Freelance

Web Developer

June 2011 - December 2012 (1 year 7 months)

I've written 14 chrome extensions that have been downloaded, in total, thousands of times.

Refactr LLC

Software Developer

September 2011 - November 2011 (3 months)

Developed a chrome extension and bookmarklet to embed the functionality of their MileMarker product into the browser.

CribFrog

Lead Developer/Designer

August 2011 - September 2011 (2 months)

Greater Minneapolis-St. Paul Area

Collaborated with the founder of this startup to prototype the first version of a social application for residential tenants using PHP.

HitMeUp

CEO/Co-founder

January 2011 - August 2011 (8 months)

Built a team and developed this social media application for connecting with friends nearby. Used PHP, MySQL, SVN, Twilio and integrated into Facebook via chrome extension.

Snap Speed Computer Care

Owner

February 2010 - September 2010 (8 months)

Virginia, MN

Had my own computer repair service in high school. This gave me a very real view of how the elderly work with technology, and greatly influenced my UX perspectives.

Mesabi Range College

Tutor

August 2009 - May 2010 (10 months)

Virginia, MN

Education

University of Minnesota-Duluth

Computer Science, Advanced Math · (September 2010 - May 2011)

Mesabi Range Community and Technical College

· (2009 - 2010)
