Devin Rhode, JavaScript Engineer

devinrhode2.github.io • (612) 440-5172 • DevinRhode2@gmail.com

Greater Minneapolis-St. Paul Area

JavaScript (ES6) · **React** · **Redux** · **Browser Extensions** · **Node.js** · **Responsive CSS**

Ember · **HTML5** · **Sass+Less** · **Animation** · **CSS in JS** · **Bootstrap** · **Web Scraping**

Webpack · **Babel** · **Create-React-App+Craco** · **Gulp+Grunt** · **Git Hooks+Husky**

Prettier · **ESLint** · **Stylelint** · **Accessibility** · **Http Proxies** · **Cookies** · **Cors**

Git · **Github** · **Gitlab** · **Jira** · **Markdown** · **Basic Ruby+Python+Bash+SQL**

Work History

BIWorldwide · Jan 24th 2019 - Jan 31st 2020

Worked on several apps with Custom CMS. Upgraded React 15 => 16, Webpack 1 + Gulp => Create-React-App + Craco (Webpack 4). Built node proxy to use data from any backend, with ability to record and re-serve requests. Mastered git submodules, but migrated to classic monorepo. Began typescript migration. Created language debug mode to find hardcoded english.

"I hired Devin to code a chrome extension that had a Facebook SDK integration component, and some non trivial script injection dependencies. Devin powered through the project in record time, and had a good sense for design and usability while doing the trickier coding parts. He is one of the most talented young coders I've ever met."

— Sergey Lossev, *client*

Alliance Laundry Systems · Nov 2017 - Oct 2018

Worked on ember-frontend of laundromat *management* app, with emphasis on re-writing washer/dryer programming interface.

EPAM · Apr 2016 - Jun 2016

Built a simple internal app for one of EPAM's larger clients, Google.

Opera · Jun 2015 - Jan 2016

Worked on extension for a consumer app. All UI was contained in a separate ember app, so extension code rarely/never needs updates. Helped with Node rest api.

"Devin has been a very significant contributor"
— Linda Hass, *Opera*

Amobee · Apr 2013 - Aug 2013

Helped with js side of hybrid native+web 3d ad engine. Upgraded ad markup language from xml to Jade templating.

Freelance & Startup projects · Since December 2010

I've written 14 chrome extensions receiving 1,000's of downloads, worked on a number of websites, and contributed countless hours to open source.

- **HeyImLea.com**, Built homepage for chatbot, scripted demo with ember+redux.
- **Scout**, personal startup project. Learned javascript, css, web performance, framing, and scraping. https://github.com/devinrhode2/Scout
- **HMU**, Built team in college, developed app for connecting with friends nearby.
- **Snap Speed Computer Care**, Started computer repair service in high school.

"Devin is a very rare type of person. He is the type of student who doesn't look for the grade in a class, but the experience and being able to take something away from it to apply in life."

— Ehsan Angadjivand, *classmate*

Education

University of Minnesota, Duluth 2010-2011 – Focus: Computer Science, Math
