Work History

Best Buy · March 2020 - June 2020

Learned jest, cypress, reselect. worked on store-locator page, git rebase black belt.

BIWorldwide · Jan 24th 2019 - Jan 31st 2020

Worked on several apps with Custom CMS. Upgraded React 15 => 16, Webpack 1 + Gulp => Create-React-App + Craco (Webpack 4). Built node proxy to simulate prod deploys. Mastered git submodules, but migrated to classic monorepo. Began typescript migration. Created language debug mode to find hardcoded english.

Alliance Laundry Systems · Nov 2017 - Oct 2018

Worked on ember-frontend of laundromat *management* app, with emphasis on re-writing washer/dryer programming interface.

EPAM · Apr 2016 - Jun 2016

Built a simple internal app for one of EPAM's larger clients, Google.

Opera · Jun 2015 - Jan 2016

Worked on extension for a consumer app. All UI was contained in a separate ember app, so extension code rarely/never needs updates. Helped with Node rest api.

Amobee · Apr 2013 - Aug 2013

Helped with js side of hybrid native+web 3d ad engine. Upgraded ad markup language from xml to Jade templating.

Freelance & Startup projects · Since December 2010

I've written 14 chrome extensions receiving 1,000's of downloads in total.

- **HeyImLea.com**, Built homepage for chatbot, scripted demo with ember+redux.
- **Scout**, personal startup project. Learned javascript, css, web performance, framing, and scraping. https://github.com/devinrhode2/Scout
- **HMU**, Built team in college, developed app for connecting with friends nearby.

> "I hired Devin to code a chrome extension that had a Facebook SDK integration component, and some non trivial script injection dependencies. Devin powered through the project in record time, and had a good sense for design and usability while doing the trickier coding parts. He is one of the most talented young coders I've ever met."
